

How to arrange your extra two years cover

To add up to an extra two years of complimentary Roadside Assistance to the initial 12 months of cover you receive upon registration of your Holden, just service your vehicle in accordance with your vehicle's handbook service schedule.

Each time you get a paid scheduled service done at an authorised Holden Service Centre, we'll give you 12 months Roadside Assistance cover beginning from the date of that service. When you carry out any future paid scheduled services, you again receive 12 months complimentary Roadside Assistance that begins on the date of that service and the new cover supersedes any existing cover you may have. For example, if the scheduled service is due after 10 months post first registration because the vehicle has reached 15,000 kms and is due for a service as per the schedule, then the original 12 months roadside is superseded by the new 12 month cover beginning on that service date. These benefits continue each time you carry out a scheduled service up to a maximum of three years from the date of first registration of your vehicle.

There are no forms to fill out, and no subscription fees to pay for the additional Roadside Assistance offer. Your Holden Service Centre will simply stamp your handbook and you'll receive a new Roadside Assistance card within 10 days of your service.

It's a real win-win. Your vehicle will be maintained by people who know Holden better than anyone. And you'll be automatically covered on the road against a wide range of potential problems - at no charge - for up to three years from date of first registration. If you have any queries about the program, please contact your Holden Dealer.
